### THE METHOD

Smoking is one of today's most serious health problems that threatens our society and prosperity. Today **IQS** is offering you a proven method to help to quickly, safely and effectively stop smoking, The IQS method is a result of years of scientific and medical research and development focused on the field of auricular therapy, using sophisticated, modern technology called **RISE** developed in the IQS laboratories.

Followed by three additional treatments, with our personalized assistance from our certified therapists, we guarantee your results for 6 months.

With a single sitting of approximately 1 hour you will be free of the smoking addiction.

**We guarantee it!**

### UP TO 90% OF SUCCESS RATE

Our success rate is not an empty promise: risk free, with a 6 month guarantee providing continued attendance until treatment completion and results determined.

Thousands of people around the world have already quit smoking with the IQS program. After successful completion of the IQS program you will:

**Breathe free:** after only 12 hours the oxygen level in the blood normalize relieving the effects on the heart.

**More sensitive:** After only 2 days your sense of smell and taste are greatly improved.

**More energetic:** In 1 to 3 months the heart is less congested, your lungs absorb more oxygen allowing much more general efficiency.
